511-TRI

TRIUMPH SEAT STENCIL

Dimensions of the logo: 5-1/4" inches long by 1-3/8" inches high.
This stencil will produce a high quality logo with no edge bleeding.

Installation Instructions:

Remove original logo from the seat using lacquer thinner. Mark the center of the seat and the center of the stencil to align the stencil correctly. Peel the backing from the stencil, and place in position. Start in the middle and work to the outside, rubbing the entire surface completely to ensure good contact. Slowly peel the outer layer of paper from the stencil to reveal the logo. Mask the entire area completely to avoid any over spray.

Hints for spraying the logo: Use a lacquer based spray bomb as this will "bite" into the seat material best. Spray a light coat from a suitable distance and let dry ten minutes, do another light coat and then do a touchup. Avoid runny spraying! The idea is to do a thin coat to cover thoroughly but to avoid buildup and a thick edge.
