

## For Sale \$9,200

Extensively upgraded 1978 Triumph Bonneville, ridden about 1,000 miles since work was done. I have \$6,200. or more of receipts, not counting my original purchase or the cost of the professionally painted gas tank (original colours) and frame. Some upgrades include: LED rear light, Pazon electronic ignition, higher output alternator, sludge trap cleaning, crankcase venting upgrade, oil filter upgrade, megacycle cams, brand new cylinders, pistons, rings, valve guides, Kiehan carburetors, clutch, shocks, exhaust, rear carrier, and the list goes on... This bike is much more dependable and runs far better than when it was new. You may pick one up cheaper, but certainly not one done to this extent for the asking price of \$9,200. This price would be negotiable for a reasonable offer. Seller lives in Sudbury, Ontario. Interested buyers can contact Dennis by e-mail at [will@unitz.ca](mailto:will@unitz.ca), or by phone at 705-677-0885. Serious enquiries only please.
